

Conformance Specifications – Patio Door Replacement Update May 2008

Before any doors are replaced, a modification request must be obtained and completed and returned to the office for review and approval by the Architectural Control Committee and/or the Board of Trustees. Windows may not be replaced without prior approval.

Any insured contractor of your choosing may be used to replace the doors; however a copy of the contractor's certificate of insurance, showing proof of liability and workmen's comp and; naming Society Hill East C.A. as additionally insured, must be submitted along with the completed modification application.

Replacement doors must have the same appearance as the existing. They must be the same size, and be white in color. Grids are not allowed. French doors are not allowed.
