

This is a photo of the approved door that conforms with others doors in the community.

Decorative doors including but not limited to, frosted, stained, or arched doors are not accepted. You must submit a photo or drawing of the door style you would like to put in so that it can be approved before the work is done.

All doors will be painted by the Association with an approved door color selected by the owner. Please ask to see a sample of the approved colors in the management office.
